EXPERIENCE

AI-Powered E-Commerce Specialist

2024 – 2025

Amazon, Walmart & eBay Account Management

On-site

- Managed end-to-end marketplace operations across **Amazon, Walmart, and eBay** including **product sourcing, listing creation, inventory monitoring, and order fulfillment**.
- Conducted **keyword research, competitor analysis**, and SEO optimization to improve product visibility and marketplace ranking.
- **Created high-converting product listings using Generative AI tools including ChatGPT, Gemini, Perplexity, Jungle Scout and AI-assisted workflows.**
- Leveraged **AI-assisted research workflows to identify profitable products, analyze competitors**, and streamline product discovery.
- Implemented pricing and inventory management strategies to reduce stockouts and maintain operational efficiency.
- Executed dropshipping operations using suppliers including Home Depot, Costco, and Essendant while maintaining order accuracy and customer satisfaction.
- **Utilized prompt engineering techniques to generate product descriptions, marketing content, and listing assets at scale.**

Computer Lab Assistant

2022 – 2024

Academic Support Role

Pakistan

- Assisted students in **programming and computer science labs**, improving understanding of core concepts
- Provided **technical troubleshooting** for hardware, software, and network-related issues
- Supported instructors during practical sessions and guided students in completing lab assignments
- Helped beginners debug code and understand logic building in programming tasks

PROJECTS

Titanic Data Explorer

- Performed exploratory data analysis (EDA) on the Titanic dataset to identify survival patterns and key features
- Cleaned and preprocessed data using Python libraries such as Pandas and NumPy
- Visualized insights using Matplotlib/Seaborn to highlight relationships between age, class, gender, and survival rate
- Built initial predictive understanding of feature importance for machine learning workflows

EDUCATION

University of Engineering and Technology (UET), Lahore

2025 – 2029

BS in Data Science and Mathematics

Lahore, Pakistan

Government College, Sahiwal

2022 – 2024
